Battles in Herzegovina.

VIENNA, October 1.—Several sanguinary engagements have taken place in Herzegovina between a body of 1,200 insurgents and 4,000 Turks. The first was fought on the 28th ult., near Klepavitza, and two engagements followed on the 29th and 30th near Praptrizza. The insurgents lost fifty-six men, and estimate the loss of the Turks at five hundred. On account of their inferior number the insurgents were obliged to retreat.

Sham War News.

LONDON, October 1.—A telegram from Paris says: At the regular semi-monthly meeting of the Permanent Committee yesterday, the Marquis of Ploeuc called attention to sham telegrams about the Herzegovinian insurrection, which, he said, were manufactured in the interest of unscrupulous stock jobbers.

M. Scherer thought they were concocted at Belgrade and Constantinople as well, by sympathizers of either party. The subject was referred to the Government for investigation.

A Speech Suppressed.

PARIS, October 1.—Public attention is at present much occupied with the fact that the official journal has not yet published the speech delivered by the Minister of Finance at the Ministerial banquet on the 29th of September. It is stated that M. Buffet prohibited the publication of the speech on account of the following sentence: "The coalition of the 24th of May is happily dissolved." M. Buffet thinks that the Ministers should examine the matter in a special Cabinet council to be held to-day. Should the speech not ultimately be published by the official journal, M. Leon Say, Minister of Finance, is expected to resign.

Peace Restored in the Cabinet.

PARIS, October 1.—A Cabinet council was held to-day. The question of publication of Minister Say's speech came up, and after explanation it was settled. Consequently there will be no ministerial changes. The *Journal Officiel* will publish the speech to-morrow, with a letter from M. Say, explaining the objectionable passage. The letter was read in the Cabinet meeting and approved.

SERIOUS EXPLOSION.

Four Men Injured—The Louisville Coffin Works Partly Destroyed.

LOUISVILLE, Ky., October 1.—An explosion of alcoholic vapors in the Louisville Coffin Works, this morning, set fire to the establishment and burned four men, two seriously. The fire was first occasioned by two boys, who entered the cellar with a lamp, the glass frame of which was broken. In drawing the alcohol from the barrel the slight fire caused by ignition with the lamp flame frightened the boys. In their hurry to get out of the cellar the boys forgot to turn off the faucet of the barrel, and though the flames were soon extinguished, the alcohol continued flowing, and when several men went into the cellar, a short time afterward, with another lamp, an explosion occurred. Eli Johnson, foreman, was dangerously burned on the head, face and body. Henry Risley was burned in the same way. John Yeager was burned on the arms, face and head. The two first, it is supposed, will die; the last is not seriously injured. William Reynolds was also burned severely while assisting in extinguishing the flames, which soon enveloped and destroyed half of the establishment. The loss is estimated at $12,000, half of which is insured in the following companies: Penn, Pennsylvania; Firemen's Fund, New York; North Western and National, Milwaukee; Farmers and Drovers, Louisville, $1,500 each.

When Beecher & Sprague bethought themselves to enquire as to the genuineness of the certificate, they found it to be a skillful fraud. Adams escaped with ut securing the amount of the check.

Bank of California.

The agency of the Bank of California of this city will pay all outstanding drafts of the bank on and after to-day.

PRESIDENT GRANT.

His Tour to Colorado—Reception at Omaha.

OMAHA, October 1.—President Grant, accompanied by his wife, Colonel Grant and wife, ex-Secretary Borie and wife, Secretary Belknap, Gen. Alvord, and a number of other distinguished men, arrived this morning from Des Moines. They were hospitably entertained by the citizens, and together with a committee of the Merchants Club, were driven around the city and to the barracks. A public reception was held by the President in the Court room. The President and party left for Colorado this afternoon.

Extensive Failure in Boston.

BOSTON, October 1.—The *Evening Journal* says: It is reported that Shepherd, Hall & Co., extensive lumber dealers of this city, have suspended, with liabilities amounting to about $1,500,000. The failure has caused considerable comment in financial circles, as numerous Boston banks held nearly $1,000,000 of paper of the suspended firm. A Montreal bank also has about $200,000 of paper, and another bank of this city has $100,000. It is stated that only about twenty per cent. of the indebtedness is in business paper. The failure is attributed to the long depression in the lumber trade.

Criminal Negligence.

PHILADELPHIA, October 1.—The verdict of the Coroner's jury in the case of the late railroad collision on the Pennsylvania Railroad near Frankford is to the effect that the disaster was the result of criminal negligence on the part of Anthony Evans, acting engineer of the dummy, in not using proper precautions at so dangerous a crossing. Evans was thereupon committed to await the action of the Grand Jury.

A CAPTURED CASHIER.

The Ebensburg Bank Defalcation—The Missing Defaulter Is Apprehended—The Story of His Flight.

The denizens in this locality were no little surprised, says the Cambria *Freeman* (Ebensburg), not to say schocked, on Sunday last, by an announcement of the fact that a closed carriage containing the absconding cashier of Collins, Johnston & Co.'s bank, in this place, accompanied by Capt. J. K. Hite, and two Philadelphia detectives, had been driven to the county jail, and that the party of the first part had been hastily conducted within its dread portals and was then, as he is now, a prisoner inside its massive stone walls.

And now a few words about the flight, pursuit and capture of the defaulting cashier, who in his departure took with him not only the two thousand dollars to which reference has been made, but also gobbled up notes and securities to the amount of $50,000 or $60,000, not for the purpose of realizing on them, as that was simply out of the question, but, as the sequal shows, with the intention of using them to shield himself from punishment, the means, as he thought, adequate to that end being the writing of a letter to his employers in which he threatened to destroy the papers in his possession unless they furnished a written guarantee that certain things, among which was his own exoneration from arrest and punishment, should be done. Such a guarantee, signed by three members of the banking firm was, it is proper to state, forwarded to the accused, and in due course of time the missing notes and securities were returned to the rightful owners. An agreement of this kind, it is needless to say, would not hold good in law; but apart from that fact, one of the parties interested, and who had not signed the exemption document, went before S. M. Douglass, Esq., of Chest Springs, then in attendance at our county court, on the 6th day of September last, and swore out a warrant for the arrest of the faithless cashier. This warrant was placed in the hands of Pinkerton's detectives, two of whom, Messrs. Petty and Shields, of Philadelphia, were detailed to work up the case. How well they succeeded is attested by the fact that they captured their prey at Greenville, Michigan, on Friday last, at which place the accused has a brother-in-law residing, and where he himself had already embarked in the lumber business, after having been summoned from Canada (where he had taken refuge pending the negotiations with his employers) by the assurance sent him that he had nothing to fear—that his dereliictions had been forgiven and would no doubt ere long be forgotten by all concerned.

The stockholders of the bank admit a deficiency of about $20,000 as the result of the prisoner's peculiar transactions, only three thousand of which, however, are directly traceable to the accused himself, and only two of which it is proper to designate as a clean steal. Of the total amount ($20,000) it is proper to say that a considerable sum will be realized and returned to the coffers of the bank from sources at the command of the stockholders therein.

EDGAR ALLEN POE.

The Remains Removed in Order to Prepare for the Monument.

On Wednesday the work of preparation for the new monument to be erected over the grave of the lamented poet, Edgar Allen Poe, was begun. In order to prepare a suitable foundation, it was found necessary to remove the remains from where they lay to the neighboring grave of Mrs. Clemm, the mother of Poe's first wife, and the disinterment took place late in the afternoon. The grave, without a single distinguishing mark beyond the green mound, stands in the southeastern portion of the old Westminster graveyard, at the corner of Greene and Fayette streets, and has probably been the most neglected of any within the enclosure. The laborers employed to perform the task, upon digging to a depth of about five feet, discovered the coffin in a state of good preservation, after having laid in its place nearly twenty-six years. The lid was removed and the remains curiously examined by the few present. There, before their gaze, was extended the skeleton, almost in perfect condition, and lying with the long bony hands reposing one upon the other, as they had been arranged in death. The skull bore marks of greater decay, the teeth from the upper jaw having become dislodged, but those in the lower were all in place, and some little hair was still clinging near the forehead. Beyond what has been described nothing was to be seen, and it was an impressive commentary on life to know that in these few fast crumbling bones existed all that was mortal of one of the brightest of God's creatures. The coffin was enclosed in another and reinterred.—*Baltimore American.*

NEW YORK papers announce that grave suspicions are entertained that Rev. Dr. Porteous and the gentlemen who lost their lives near Glen Cove, Long Island, on Wednesday, were foully dealt with. Some friends of the Doctor are under the impression that they were murdered by their companions, and have called on the District Attorney to investigate the matter, the Coroner having rendered a verdict of death by drowning.

We are in receipt of our new Fall Goods, embracing all the best makes of plain dress good in cloth colors. All the new designs in plaids, checks, mottled debeges, and camel's hair cloth for suits and costumes.

The Solicitor of the Treasury has given an opinion that a license tax upon the capital of a National bank cannot be enforced, and that State officers have no right either to examine or to exact reports from National banks.

READY FOR A GOOD SHOWING UP.

A Superb Selection of Finest Qualities of Cloths, Cassimeres and Vestings—The World Moves.

It is a noticeable fact that many business houses are conducted on the fogy system, while others make daily advancement in improving the style and quality of their goods and perfecting their manufacture and to this class belongs the merchant tailoring house of Messrs. Blakely and Kunz, successors to James Blakely No. 60 Smithfield street. Their stock, which has been selected with unusual care, comprises all the latest novelties in European as well as American manufacture, and is rich without extravagance and stylish without being loud or gaudy. Experience has taught the proprietors of this establishment that success in trade is the result of keeping in stock, goods of a No. 1 quality, and this they have carried out to the very letter, as the assortment of suitings is unsurpassed for excellence. With a fresh, new, fashionable and elegant stock, and superior skill in the matter of neat fitting suits, and durable manufacture, supplemented by low very low prices, the merchant tailoring house of Bleakly & Kunz must do a rushing business as they offer every inducement for satisfactory patronage.

Fire and Water, Good Servants but Bad Masters—An Ill Wind that Blows Nobody Good.

The truth of our second proposition is being practically developed in the fire that occurred on Sixth street. It was an ill wind to T. Tobias, the "Great Clothing Prince," at No. 13 of this street, in that it sponged his ready made Clothing by water—not damaging it a particle for the purpose of use and wear, but only in name. He was a loser to the extent not covered by insurance, but the public will be greatly benefitted by his loss, as he has determined to close out the stock at low prices. The Clothing is as good as the best, and only water soiled—not injured; and at the prices at which they are being sold, may be said to be given away. Embrace the opportunity to get good suits at nearly nothing. The goods must be sold, let them bring little or much, and they bring but little. Gather up a few dollars and take advantage of this opportunity for bargains in ready made suits.

Gasoline.

Messrs. Elkins & Flack, of this city, now have a Gasoline and Naphtha works in successful operation, and are prepared to supply tinners, painters, druggists, and persons using gas machines with GASOLINE FROM 85° TO 90° PER GRAVITY for gas machines. Naphtha, for mixing paints and varnishes, Petroleum (fluid) for tinners' furnaces and vapor burners, and Treated Benzine for gas making and other purposes, in lots to suit purchasers.

The above products are pure spirits of Petroleum, redistilled, treated and deodorized; they are much superior to common or raw benzine, and are specially adapted to the uses indicted.

In constructing a works for the manufacture of Gasoline and kindred products on a large scale, this enterprising firm have supplied a want long felt in this community, and we wish them the success their enterprise merits.

Don't forget our *Prince Albert* Alpacas, which, for beauty of finish, cannot be excelled.

GRAND OPENING.

Cheaper Than Ever—All Want to Buy.

It would seem, judging from the unusually large assortment of extra good Clothing in store, at the Boston Clothing House, No. 95 Smithfield street, that the fall trade in this line, at least, promises to be a brisk one. It would seem, too, for the same reason, that the proprietors of this house had culled from all Eastern markets, so choice is the selection on exhibition. And as the proof of the pudding is in the eating of it, parties to realize the cheapness of their goods must visit the store, examine the goods, hear the prices, and if they can buy cheaper any other place in the United States, we have yet to hear from it. Prices are reduced to meet the present condition of financial affairs—and low enough they are.

A Darkened Life.

In Nashua, New Haven, resides a young girl whose pitiful lot excites the deepest sympathy, yet for whom sympathy can do but little in alleviation of the sad misfortune which has darkened her life. By the explosion of a kerosene lamp, she was terribly burnt about the head and face, and although she survived her injuries, she was thenceforth disfigured for life, and the rosy face of childhood was changed to a mask—a travesty on the human countenance—absolutely frightful in its hideousness. In Lowell, Massachsetts, where she once lived, so great was the horror excited by her appearance that she was forbidden by the authorities to show herself on the street. At Nashua she ventured out the other day and several ladies fainted at sight of her, and a call is now made upon the authorities of that place to forbid her appearance on the streets. What a morful fate is hers! to live through the terrible physical sufferings only to endure henceforward a keener mental anguish in the knowledge that she is a thing of horror, to be abhorred and shunned by human kind, with no hope in the future except the grave, which shall hide her deformities from the gaze of her fellow beings.—*Boston Transcript.*

Exposition Goods.

Every one seems to be making preparation for the great event of next month, but R. Taggart, No. 129 Federal street, Allegheny, outdoes all in the extent, beauty and excellence of his goods. And as no one ever attempted to compete with him in low prices, so yet he has the field all to himself in that respect, as his boots and shoes are far below all others in price. Taggart will keep his stock moving should he realize but five per cent. on his sales. His selling price is the cost price of many other houses.

REPORTORIAL PRIVILEGES.

The Hearing Yesterday in the Case of J. V. Cracraft—Testimony for the Prosecution and Defense—A Fine of Five Dollars Imposed on the Prisoner.

Quite an audience collected at the Central Police Station at four o'clock yesterday afternoon to hear the evidence and sentence in the adjourned case of J. V. Cracraft, a reporter on the *Commercial*, who was arrested at the Sixth street fire, on Thursday night, by officer McCoy, for alleged disorderly conduct. The first witness called was officer McCoy. He testified that he saw the defendant rushing around and trying to get in the door where the fire was. Lieutenant Tyre had instructed him to admit no one but reporters of the press and the parties belonging to the house. He told Cracraft go away, and the latter replied, with an oath, that he was going to see what was going on. The balance of the officer's evidence, nearly in his own words, is as follows: "I said, gentlemen, please stand back, and shoved Cracraft out. He returned and again I shoved him back and told him if he came back any more I would take him to the station house. He came back, and Lieutenant Tyre told me to keep the street clear. Defendant shook his fist under the Lieutenant's nose and said, 'I'll give you a d—d good blast in the morning.' He went to No. 13 Sixth street, and got a crowd around him, and I arrested him. He talked about us putting him away and said we had no right to do it. His own partner said he was no reporter. I don't know who the gentlemen was, but he said to Cracraft, 'those officers are doing their duty. Keep away from them.'" A few cross-questions were put to the witness by the defendant, but they developed nothing of importance.

Officer James Carey gave his evidence as follows: "Lieutenant Tyre placed me at the door of Tobias' store and instructed me not to let any one in but firemen and reporters. I heard loud talk on the sidewalk, and turned to see what was the matter. The prisoner was hallooing very loud. The Lieutenant had hold of him. He said, 'I will get in there,' three or four times, very loud. He didn't say to the Lieutenant at that time that he was a reporter. The Lieutenant shoved him back three or four times, and then gave orders to the police to clear the sidewalk of all citizens. The prisoner wouldn't go, but rushed up to the Lieutenant, shook his fist under his nose and said, 'I'll give you a d—d good blast in the morning.' The Lieutenant shoved him back, and Cracraft fell on the sidewalk by tripping on a line of hose. After that he disappeared in the crowd, and I didn't see anything more of him, but I heard loud talking and swearing, though I couldn't say it was done by the defendant. That's all I know about the case." On cross-examination the witness stated that he was sure Cracraft tripped, and that the Lieutenant did not fall on him.

Lieutenant Tyre, sworn—"I went up to Cracraft and requested him to move back. He wouldn't go, and I asked him what his authority was. He wouldn't give me any satisfaction. I caught hold of him and put him back. He came back a second time, shook his fist in my face and said he would give me a good blast in the morning. Then I caught hold of him and put him back. We both fell. I didn't fall on him. He tripped on a line of hose. After he was put away in the crowd you could easily have heard him to Penn street. Then officer McCoy arrested him."

Lieutenant Cochran was also examined for the prosecution, but his evidence amounted to nothing.

Mr. Cracraft, in his own defense, then offered to bring F. P. Case, Secretary of the Fire Commission, to show what the rules of the Commission are concerning reporters, what privileges the latter have by custom at fires, and thereby prove that he was only demanding what he conceived to be his right in insisting upon admission to the fire. The Mayor ruled, however, that such testimony would be irrelevant, and not pertinent to the case, and therefore declined to hear the witness.

Mr. Cracraft—Well, I'll call Mr. Case to show that I am a reporter.

Mayor—That is not necessary. Your badge would have indicated that.

Mr. C.—But I have no badge. If the [illegible] Manual requires reporters to wear badges, [illegible] furnish them?

Mayor—With that I have nothing to do. [illegible] thief can go up to an officer at a fire and say [illegible] a reporter," and gain admission to places he has no business, and probably steal goods, [illegible] some insignia of your calling is exhibited.

At the hearing in the morning [illegible] had testified that Mr. Cracraft was into[illegible] for the purpose of rebutting that [illegible] Ramsey, also a reporter on the Com[illegible] was called, and he stated that he saw [illegible] when he came into the office just after the fire, and that he was not drunk. Witness [illegible] saw him drunk in his life.

Mayor—I can go still farther than [illegible] and say that I never saw him take a drink. [illegible] always known him as a quiet, orderly person.

M. V. B. Douthett, a reporter on the [illegible], testified that he and Mr. Cracraft went to the fire together. The officer pushed them back and the defendant was about to explain that he was a reporter, but he was very slow about it, being naturally a very slow talker, and the next thing he knew Cracraft was on his back. The officer threw him around pretty lively and laid him on the pavement. Witness did not hear any such profanity as testified to by officer McCoy. Heard defendant say that he would give him a blast in the morning, but did not remember that he used profanity.

Prisoner to the Mayor—You rule out all evidence to show the custom which reporters have followed at fires?

Mayor—I rule out everything contrary to police regulations. Have you any more witnesses?

Cracraft—None.

Mayor—My judgment, then, is that you pay a fine of five dollars and costs.

The sum was forked over, and the prisoner departed in peace.

THE Clearfield Democrats think WALLACE is in "the front rank of American Statesmen!" Since when?

THE workers at Fall River have agreed to resume labor, and all danger that at one time seemed probable, has been entirely dissipated. Better counsels prevailed, and the men have settled down to steady work, which is far more sensible than to sulk idly through the Winter.

MUTUAL ADMIRATION No. 2 is now at work. It quotes from us, and we compliment it on the excellence of its selections. Just why it is at the pains of quoting we do not known, unless it illustrates that we can state a subject explicitly, even if it has a number of sides to it. We do not find it necessary to quote from it for that, or any other purpose.

EFFORTS are being made in Louisiana to have the color line in politics abandoned, to the end that Liberals and Republicans may unite, and a better class of candidates be thus selected for office. It is felt that so long as the social ostracism is maintained toward those who consent to be candidates for office, a high class of men cannot be secured. The effort, if successful, will remove all complaint, because of the selection of inferior men, and will go far toward giving a pure administration in Louisiana.

IT is very probable that the ill feeling generated between Servia and Turkey, through the Herzegovinian revolt, will lead to a conflict of arms. Turkey violated the territory of Servia, and the latter has shown a decidedly belligerent spirit in consequence. There is evidently an amount of feeling between the semi-independent principalities and Turkey, that seems to render war at all times imminent. The tendencies are to prompt and outspoken anger, at the slightest infringement of rights, on either side. Perhaps it might be well for them to fight their battle out.

THE address delivered by President Grant is a profound surprise to the press. The Eastern journals,—a day behind our Pittsburgh press in giving the speech,—are curiously probing it, to discover, if possible, what hidden meaning it contains. One imagines that its reference to the school question is intended to draw attention away from the currency issue, and administrative reforms. We doubt this. General Grant is not a man who seeks by indirection, to reach his points. The probability is, that he simply determined to utter what was in his mind and did it.

THERE seems to be some misapprehension concerning the decision of the Supreme Court, relating to the constitutionality of the Legal Tender Act. The Chicago *Tribune*, even, states that it was declared unconstitutional, and that this decision was afterward reversed. Chief Justice Chase, in his dissenting opinion, at the time the act was declared constitutional, clearly stated that a decision was arrived at, declaring it unconstitutional, but that it was not promulgated; hence that declaring it constitutional is the only one actually communicated to the public, and, in reality, the only decision that was finally consummated by formal announcement. This decision turned on the application of the Legal Tender Act to contracts made before the passage of the act, but incidentally included an expression of opinion, equivalent to a decision of the entire subject. We are very confident that we state correctly a point, over which there is much violent, but very useless discussion.

IT begins to be a question which in their sphere, ask the most, the Sioux Indians or the Democratic party. The former are credited with demanding $70,000,000 for the Black Hills, besides horses, food, saw mills, guns, powder and bullets, and a little of everything else they may think of hereafter. The Democratic party asks the country to forget, or else apologize, for having beaten down its rebellion, and replace it in power again. This involves a great deal. When in power before it bankrupted the United States Treasury and the country at large, expanded and intensified the brutalities of slavery, and ended by giving us the war of rebellion. That rebellion left us a debt of $3,000,000,000, destroyed many hundred thousand lives, beside serving to ultimately paralyze our industries; yet the very parties who sympathised with it now ask those who saved the country to "step down and out," and those who fomented rebellion be given their places. Does it not seem very like Indian modesty?

IT WOULD be amusing, were it not in a sense pitiable, the confusion that has fallen on the Democratic party in this State and Ohio. Their tickets and platforms were made amid high hopes of success, and these represented their most jubilant moods. The result was, ALLEN and CARY in Ohio, and PERSHING and PIOLLET here, for candidates, and platforms that were intended to mean unlimited inflation. As time goes on, there are revelations in Ohio that make the defeat of the Democracy to be desired by such men as Thurman, even. His desires are entirely likely to be fully gratified. Here, such revelations have been made, as have astonished and alarmed the Democratic leaders. They thought that with the aid of the "Independent" press they had allayed all feeling because of copperheadism during the rebellion, and imagining PERSHING a very genteel professional gentleman, and PIOLLET a first class Granger, put them in nomination in full expectation of an easy victory. But the outburst alarmed them. They found that the people did remember disloyalty during the war, and that PERSHING was possessed of a strangely crooked and tortuous record; while PIOLLET was too much interested in getting his mother-in-law's estate to be valuable as a candidate. Hence we hear of many efforts to draw them off,—but they won't draw. PERSHING notified them that he would keep the Judgeship, and if they could manage to elect him Governor, he would take that too. So there is anything but harmony in their ranks, or hope in their hearts.

THERE is a phase of argument employed by the force-resumption journals that does'nt exactly harmonize with facts. They strongly affirm that the natural effect of a law of this character is to bring greenbacks up to a gold standard. The fact is, gold has steadily risen, from the day the resumption act was adopted. Just why, may admit of several answers; but the fact is entirely beyond denial. Hence the law is not working out the result indicated. If it be said it contains an expansion as well as contraction feature, we answer, this feature will accompany the law to the end. If it works an increase of the premium on gold now, how can it do the opposite after awhile? If it gives us more currency, and it be true that more currency puts up the premium on gold, and sends the precious metal out of the country, how can we accumulate enough gold under it to resume in 1879? In other words, if the theory of force resumptionists is correct, how can their bill be made to bring about resumption?

THE Chicago *Tribune* evidently understands the "true inwardness" of our political canvass. It makes the following important statements, which have a strong flavor of truth about them: "Even the Democrats of Pennsylvania are getting sick of Judge PERSHING, their candidate for Governor, and his attempt to catch the votes of both sides by adopting a half-way policy. He is not enough of an inflationist to suit the rag-money Democrats who built the Erie platform, and he is not enough of a sound-money man to suit hard-money Democrats. So dissatisfied are they growing with him that it is now rumored they will ask him to retire in order that they may place a positive man in his stead. Judge PERSHING does not seem to be a positive man in anything. During the war he professed to be a Union man, and voted and worked against it on every occasion. Now that he is a candidate for Governor, he refuses to resign his position on the Bench at the request of his friends, so that he can make a show at least of official decency. He is a half-way man, and, if he continues to run, the probabilities now are that he will get only half-way to the Gubernatorial office." Better withdraw him.

POLITICAL NOTES.

THE Baltimore *Gazette* is for Senator Tom Bayard for President.

THE Toledo *Catholic Review* is authority for the following: "That the Catholic vote should be cast solely for the Democracy at the coming election is undoubtedly true. *It is the only possible hope to break down the school system.*"

WHAT one vote will do was shown in the recent election in Lassen county, Cal. There was a majority of one vote for Governor, the two candidates for the Shrievalty were tied, and the School Superintendent was elected by one.

GOVERNOR TILDEN pardoned Ingersoll, the Ring robber, on the pretext that he was to be a witness in the city suits. Now it is given out that he pardoned Conroy, the Cold Springs burglar, who kept all the river towns in terror last Winter, in order to make him a witness against his fellows. These witnesses never testify against anybody worth arresting, nor tell anything that will restore a stolen dollar. Besides, Tilden only pardons Democrats.

THE LYNCHING IN OHIO.

An Innocent Man Murdered by the Mob.

The hanging of James Shell by a mob is a disgrace to Ohio. It is tolerably clear now that the mob murdered an innocent man, and that Shell told the truth when he said with his latest breath that his wife was the murderer—that she had grown jealous of the murdered girl, enticed her into a lonely place, and there destroyed her. As the wife becomes known it is seen that she is a fiend capable of this thing; and there is an awful bit of testimony. The pretended confession of the wife, the real murderer, caused the hanging of the innocent husband; and the day after the hanging—

"The most startling bit of evidence against Malinda Shell came out in the morning. It had been overlooked in the excitement of the Lynch. *In the hand of the dead girl, tightly clenched, has been found some threads of hair. In her death struggle with the enemy she tore these from the roots, and held them like a vise.* The hair was fine, dark and straight. They were supposed at first to be from Shell's head, but on examination under the microscope they appeared darker and coarser, for his own hair was uncommonly fine, and what settled the matter as to Shell, the hair ranged from ten to fourteen inches in length, and no hair in his head measured half that. Were they Alice's? No; her hair was a dark auburn, and finer in texture. Whose then? *They belonged to Malinda. In length, color and texture they were an exact counterpart of this woman's locks.* In order to shield herself, while her husband was in jail, and public opinion was ready to silence him, she had evidently manufactured the greater part, if not all, of that horribly strange story."

Human Saliva Kills Snakes.

The Marietta (Ga.) *Journal* was told by a gentleman the other day that human spittle was as deadly to poisonous snakes as their bites were deadly to man. He says while picking up a bundle of straw and trash under his arm, while cleaning a field, a ground rattlesnake, four feet long, crawled out from it and fell to the ground at his feet. He at once placed his heel upon the head of the snake and spit in its mouth. Shortly afterward the snake showed signs of inactivity and sickness, and he picked it up by its tail and carried it to the house and showed it to his wife, telling her he had spit in its mouth and that it was poisoned. At the expiration of fifteen minutes the snake was dead. To further experiment, he came across a blowing adder (snake), which ejected from its mouth a yellowish liquid. He caught it and spit in its mouth, and it died. He caught another blowing, and it refused to open its mouth. He spit upon a stick and rubbed the spittle upon the adder's nose. Afterward he came across a black snake, regarded as not poisonous, and he caught it and spit in its mouth. Instead of the spittle killing the black snake, as it did the poisonous reptiles, it only made it stupidly sick, from which it recovered. This conclusively shows that poisonous snakes have as much to fear from the spittle of man as man has to fear from their bites.

Tramping for Money.

The Utica *Morning Herald* says that on Saturday a couple of tramps applied to a lady on Hubbell street for something to eat. They were given plenty of bread and cold boiled ham. This lunch was eaten while the beggars sat upon the stoop. After eating one of the men said, "Where's your husband?" The lady said he had just laid down to take a nap. "You can't play that," the fellow replied; "we want money enough to take us to Albany, and must have it." The lady was ironing at the time and had just taken a flat iron from the stove. Raising it over her head she aimed it at both and said, "You get away from here, or I will save you the trouble of going to Albany." The rascals saw that they were foiled, and fled. This kind of business is getting to warm. The more kindness is shown to such fellows the more impudent and ungrateful they are. The best plan is to refer all unknown applicants for relief to the office of the Board of Charities.

His Feelings.

Last night, as a frisky colored youth was walking up Clay street, he was accosted by a colored acquaintance, who remarked:

"Well, Brutus, they say you iz in love?"

"I iz, Uncle Abra'm—I don't deny de alleged allegation."

"And how does you feel, Brutus?"

"You have stuffed your elbow agin a post or sumthin' else afore now, hasn't you, Uncle Abra'm?"

"I recon."

"And you remembers de feelin' dat runs up yer arm?"

"I dose."

"Well, take dat feelin' add a hundred per cent., mix it wid the nicest ha'r oil in town, sweeten wid honey, and den you can 'magine how I feel!"—*Vicksburg Herald.*

THE jury in the cases of George Miller, John Glew and Smith, the Jefferson Borden mutineers, who have been on trial in Boston for the past week, have returned a verdict. Miller and Smith were found guilty of murder. Glew was acquitted.

BY a collision on the railway at Fairhaven, Vermont, last Thursday night, two men, named Caldwell and Shay, were killed, and two engines and several freight cars were totally demolished.

HOME NEWS.

The Proclamation.

Upon another page of to-day's paper appears the Election Proclamation, from Sheriff Hare, and it is a document which the yeomen in the several precincts would do well to peruse. The proclamation was prepared by our courteous and careful friend, ex-Sheriff Cluley, Chief Clerk in the office, and it will be found all correct, as he never does things by halves, and is the very embodiment of reliability. The preparation of such a long proclamation is a work of considerable perplexity, and requires experience, as well as accuracy, in both of which particulars our genial-hearted friend excels. It is an interesting announcement to voters.

This Evening's Torchlight Procession.

Yesterday afternoon, at the rooms of the County Committee, the Marshals of the clubs which are to participate in to-night's torchlight procession, held a meeting, and received reports from fifteen clubs, representing a membership of sixteen hundred. The parade will commence promptly at 7:30 o'clock. The following additional aids were appointed, Robert Kyle, John Keown, James Wilson, David Crawford, Captain James D. McGill, John C. Harper, Fred Lang, Gideon Blaney, James S. Fleming, Robert Boyd, George Porter, James McAdoo, Jr., John Boyd, James Duncan, Wm. Green, H. Bowden, John Graham, Thomas Campbell, Daniel Bradford, Charles Lingenfelter, Harry Nesmith. J. Martin Shafer was appointed to the charge of the South Side division in place of James O'Neil resigned.

Touching the Press Business.

The old Press Committee of the Industrial Institute met yesterday afternoon. Considerable discussion took place in regard to the action taken by the proprietors of the daily papers, who decided against a banquet and hop that it was proposed to give the visiting members of the press.

Mr. T. W. Davis stated that the proprietors of the dailies were especially opposed to a banquet and hop being given, and he therefore moved that this committee, as a committee, give no hop nor banquet, but let the managers of the Exposition do as they pleased in that respect, to entertain the members of the press from other cities.

Mr. Keating stated that Messrs. Mitchell and Nellis, of the Exposition, had subscribed $500 each to defray the expenses of the entertainment, which would be paid as soon as the Press Committee appointed a Treasurer.

After some further discussion Mr. Davis' motion was adopted. The following resolution was then passed:

Resolved, That the feeling of this committee is that all differences existing between the daily press and this committee be amicably arranged for the benefit of the Exposition and for the best interests of our city, and we respectfully request that the members of the daily press meet us on Saturday afternoon, October 2d, at 3 o'clock, at No. 121 Fourth avenue, for the purpose of harmonizing all differences, if any exist. Passed unanimously.

The Secretary was instructed to furnish the proprietors of each daily paper with a copy of the above resolution and earnestly request their attendance at the proposed meeting.

"Odors From Araby the Blest."

Harry Ellsler, Treasurer of the Pittsburgh Opera House, tells divers funny stories about the oddities and eccentricities of some of the many persons who come, for the purpose of buying tickets, to the little eight by ten office which he makes his habitat. He says, among other things that no one who has less intercourse with all classes of the community than himself, can form an adequate idea of the number of disordered stomachs he is obliged to come indirectly in contact with. He judges of the average "bread basket" by the aid of his nasal organ, which is frequently outraged by the foul breath it is often obliged to inhale. The effect upon him is sometimes so instantaneously demoralizing that it requires a great mental effort on his part to prevent nature from succumbing, and himself from giving the ticket seeker a little melo-dramatic performance on the spot. He thinks if some of the actresses who are obliged to do fainting or dying business, and who desire to do it naturally and effectively, could at the proper moment get a good square whiff of what he is greeted with now and then they would swoon so effectually as to evoke a yell of delight from the gods of the gallery and a groan of agony from the unfortunate sufferer. Whisky is the chief odoriferous ingredient in the breath of the men. It ranges from the first-class article—two drinks for a quarter—to the worst quality of "mountain dew" that ever was concocted. After having been put through the rectifying apparatus of the human system the lungs throw off the impurities, and Harry alleges that the effect is almost as deadly as the odor of the Upas tree. Bad teeth is what ails the ladies, and he wonders why they do not patronize the dentist and tooth-picks.

Correcting Misstatements

As the impression has been created that Mr. Vannote was reflected on by Mr. Nellis at the time of the meeting with the several committees, concerning press matters, it may be well to briefly set the matter right. Neither Mr. Vannote, nor the Executive Committee regard him as either deserving to be, or having actually been reflected on. The simple truth as to the points at issue is: 1. The Executive Committee did, on the 15th of September, grant to J. H. Miller the exclusive privilege of issuing an Exposition Guide and selling the same within the Exposition building. The minutes show this. 2. What Mr. Nellis "repudiated" was the idea that a certain paper read, constituted a legal contract—as was being represented—it requiring the name of the Chairman of the Executive Committee to make it so as well as that of the Secretary. He simply repudiated, therefore, the claim of legality set up for the paper. This was the whole business, and the Secretary did not regard himself as reflected upon at all. He it was who made the motion to repeal all privileges heretofore granted for Guides or papers.

The paper relative to the Guide was written for a specific purpose, fully explained and the Committee in its after meeting fully endorsed, in informal conversation, the motive and fact of giving the paper, the mischief simply being in its being used for another and different purpose.

As there seems to be some misapprehension as to the workings of the Committee, it may be well to explain that the Board of Directors have given all power in originating the Exposition, to an Executive Committee of five, of which Thos. S. Mitchell is Chairman, J. Vannote Secretary, and Columbus Coleman, Treasurer of the Board. A. J. Nellis, President of the Board, and James Johnson, one of the Secretaries of the Board of Directors, are members. This Committee has worked unitedly and harmoniously together these many months, all being really equal both in responsibility and labor, and in the interest they feel for the success of the enterprise. They have toiled, by day and by night, far beyond the thought of any who have been mere lookers on, have assumed financial burthens, and at last have brought the enterprise near to a very great success. They simply ask the forbearance of criticism and the cordial co-operation of all, and all will be well.

A BROKEN BACK.

Fatally Injured in a First Ward Planing Mill.

James Bunton met with an accident yesterday afternoon, which will in all probability prove fatal. He was employed in the planing mill on First avenue, just below Short street, and about half-past three o'clock was standing on a ladder oiling the shafting over head. He slipped, and, losing his foothold, fell on a planing machine and broke his back. He was picked up and carried to the residence of his father, Wm. Bunton, in the First ward, Allegheny, near the other end of the Union bridge. The injured man is quite young, not over eighteen or nineteen years of age and it is likely that the accident he has met with will result fatally.

BADLY BURNED.

Two Men Seriously Injured by the Explosion of Molten Metal.

Yesterday afternoon a very serious accident occurred to two of the workmen in Peterson & Irwin's foundry, at the corner of Washington and Preble avenues, Allegheny. It appears that a quantity of molten metal had been run into a pot, when one of the men picked up a small piece of iron that had been lying in a pool of rain water and threw it into the pot of molten metal. The water on the cold iron was instantly converted into steam, and a report like that of a cannon followed, which was heard for several squares, and scattered the hot metal for some distance. A large quantity of it was blown into the faces of two of the workmen, injuring them very badly. They were both removed to their homes near by and medical aid summoned.

ALLEGHENY POOR BOARD.

Meeting of the Directors.

The Allegheny Board of Poor Directors held their regular monthly meeting last evening.

Mr. D. F. Johnston presented his report as steward of the Poor House during the month of September. He reported that sixteen persons had been admitted to the poor department, and there were two births, and twelve persons discharged, leaving one hundred and fifty-nine inmates in this department.

In the Insane department three were admitted and three discharged, leaving forty-five inmates in this department. Report received.

The quarterly report of Dr. B. B. Smith, physician to the Board, was received and filed.

Mr. R. D. McGonnigle, Secretary, submitted his report for the month, reporting the expenditure of $176.55 during the month, and the collection of $239.61. Report received.

Bills to the amount of $2,300 were submitted and approved, and bills to the amount of $1,200, which had not been presented in time to be examined by the Finance Committee, were laid over for examination.

After the transaction of some routine business the Board adjourned.

COUNTY FINANCES.

A Good Showing for the Year 1875.

The present condition of the financial showing of Allegheny county is certainly very satisfactory, as is evidenced by the figures taken from the books of the county officials. While large corporations and railroad companies may fail to even pay the interest on their bonded debt, Allegheny county is not only meeting her indebtedness and interest as fast as it matures, but is lifting her bonds which have nearly four decades yet to run. Yesterday $13,000 worth of Work House bonds fell due, which were paid on presentation. Besides this, a holder of $5,556.83 of Compromise bonds, which were not due for over thirty-seven years, was favored with the cash for his paper at the rate of eighty-five cents on the dollar, which was a clear saving to the county of $738.12. Eight years ago these bonds were worth in the neighborhood of seventy-seven cents on the dollar, which shows how rapidly they have increased in value, albeit they are not due for so long a time. Up to the present time this year the debt of the county has been reduced $56,000, or at the rate of over $6,000 per month.

The expenses of the county for the first nine months of the year 1875 have been $508,177.33, as against $523,581.00 for the same time in 1874, showing a reduction of $15,404.67.

EXPOSITION NOTES.

Matters of Interest About the Building and Otherwise.

The applications for space at the Exposition building are coming in so rapidly that it has been found necessary to reduce the amount of room allowed exhibitors in some cases as much as fifty per cent.

The boilers in Power Hall are to be furnished by B. Monroe, instead of Carroll & Co., as has been heretofore reported.

Ten large cases of chandeliers and gas fixtures arrived from New York yesterday morning, and will be speedily erected throughout the building.

The prospects for a display of blooded stock are most flattering, and the indications are that the exhibition will be the finest of the kind ever known in Pittsburgh. One county alone in Ohio will send in forty head of fine blooded horses.

McClaren & McKennan are erecting an $8,000 soda fountain.

Dr. J. H. Connelly is erecting a frame building outside of the Exposition building to enclose his fire extinguisher.

The street parade will be a success, about seventy-five business houses having already notified the Executive Committee that they will take part in the parade.

One house turns out all its employes working in a large wagon drawn by twelve horses. All communications relative to the parade should be sent to the Executive Committee, and marked "Civic Procession."

REPUBLICAN MASS MEETING.

Speeches by Hon. J. C. Newmeyer and Col. T. M. Bayne.

An enthusiastic Republican mass meeting was held at Sharpsburg, on Thursday evening at 7½ o'clock. It was the largest and most enthusiastic of any political meeting held in the borough this season.

Dr. C. A. W. Redick called the meeting to order by announcing the following officers.

President—James W. Over.

Vice Presidents—Jacob Covode, Capt. James G. Saint, Jacob Kiel, L. W. Lewis, N. G. Ayres, Col. J. L. Loyd, T. H. Gibson, H. G. Braun, Wm. Burns, Wm. Sample, Henry Heinz, Sr.

Secretaries—James M. Ayres, R. M. Coyle, Dr. W. M. Brinton, John L. Hays.

After a few excellent preliminary remarks by the chairman, Hon. J. C. Newmeyer was introduced, whose speech was frequently interrupted by rounds of applause. Hon. T. M. Bayne was next introduced, and delivered an able address. The speakers passed the highest encomiums on the nominees of the Republican ticket.

In the report of the organization of the Republican Club of Sharpsburg, the names of James M. Ayres and N. J. Braun were omitted from the list of Vice Presidents. I make this correction in justice to the parties named.

C. A. W. REDLICH,
President of the Club.

This is said to be the second offense committed by Giles, the facts in connection therewith being given in full at the time of his arrest. In Memoriam.

At a meeting of the teachers of the Sixth avenue U. P. Mission Sabbath School, held Wednesday evening, September 29th, the following resolutions were unanimously adopted:

WHEREAS, It hath pleased our Heavenly Father in his inscrutable Providence to remove from our midst by death our esteemed sister and co-laborer, Nim F. Hebron, who, almost from the organization of our school, has been connected with it as one of our most active and efficient workers, and desiring to place on record our tribute to her memory; therefore,

Resolved, That in her entire consecration to the Master's work, her unceasing activities, notwithstanding frequent bodily weakness, her untiring devotion to the interests of the school and her class, and her efficiency in every department of labor, she hath left us an example worthy of our imitation.

Resolved, That while her death has left a vacancy in our school and our hearts not easily filled, and we therefore mourn her loss; yet "we sorrow not even as others who have no hope," but rejoice in the confident assurance that "she sleeps in Jesus," and is now one of the white robed throng who "serve Him day and night in His temple."

Resolved, That in this providence we hear the Master saying unto us: "Work while it is called to-day, the night cometh when no man can work."

Resolved, That to her afflicted mother we extend our heartfelt sympathy in this hour of sad bereavement.

Resolved, That these resolutions be entered upon the records of the school, and a copy sent to the mother of the deceased.

FINANCIAL.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, October 2, 1875.

The storm of yesterday prevented active financial operations; even had the tendency of the market been toward activity. This is not the case, however. The demand for money for the first of the month is lighter than usual, especially from the mercantile branch of trade, as their collections and sales have been quite liberal within the past two or three months. The movement of currency to the country continues quite liberal, and, with favorable weather, the trade in this direction may be quite good. The public debt statement for September shows a reduction of the public debt for the month of $3,342,562.69, with the following balance in the Treasury: Currency, $4,790,352.92; coin, $67,833,316.94; currency certificates, $60,660,000; coin certificates, $11,645,200. The reduction in coin certificates for the month is over $6,000,000. This is a most excellent showing at this time.

THE IRON TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, October 1, 1875.

Pittsburgh.

PIG IRON.—There is no improvement to note in the Pig Iron trade, and while it is hoped that there will soon be, the outlook at the present writing is anything but encouraging. It was confidently expected during July and August that there would be considerable stir in the raw article in September, if there was not before, but there was less business in September than in August, and it looks just now as if October would be no improvement on September. The mills, almost without an exception, are buying only when forced to do so, hence notwithstanding stocks are very much reduced, the general tone of the market is weaker, and it is doubtful even if inducements were held out, such as a slight reduction in prices or an extension of time, whether buyers would take hold, in consequence of the very unsatisfactory condition of the market for the product. However, as stated in our last report, sometimes an improvement takes place when it is least expected, and there may be a very decided change in the general position of the market within the next few weeks. Following sales were reported:

ORE.

100 tons Lake Superior	$7,75 00	4 mos

CONNELLSVILLE COKE.

360 tons Mixed Iron	private

25 tons No. 1 Foundry H. R.	$29@31 00	4 mos
175 tons No. 1 Foundry H. R.	private	
100 tons Missouri	private	

MANUFACTURED IRON.—The market for manufactured, iron, particularly the ordinary sizes, continues dull and very unsatisfactory; some manufacturers report that their orders are scarcely sufficient to absorb their production, single turn, and all agree that prices are unremunerative, scarcely cover actual cost of manufacture. From all that we can learn, the iron trade, so far as Pittsburgh is concerned, is more depressed, and unsatisfactory, now then it has been at any time since the panic, and it is intimated, that, unless there is a very decided change for the better in the meantime, a general shut-down is not improbable between now and the close of the year. Merchant Bars may be quoted nominally at $2,30@2,40, sixty days.

NAILS—There is a fair degree of activity, although some makers report that orders are not coming forward as freely as expected. Prices unchanged; three dollars, sixty days with the usual discount of two per cent for cash, and a rebate of 10 cts ⅌ keg on orders for 100 keg lots and upward.

New York.

NEW YORK, September 30.—*American Pig.*—The market continues in the condition last reported. The principal furnaces are holding their iron firm at our quotations, but we hear on all sides of lower offers from others. Transactions at lower prices are, however, kept so secret that we cannot give particulars. We note the sale of 100 tons Hudson No. 1 Foundry at $25, and 1,200 tons Crane and 400 tons Thomas at full prices. We quote as last week: No. 1 Foundry, $25; No. 2 Foundry, $23; Gray Forge, $20@22. *Scotch Pig.*—In Glasgow a speculative movement has forced up all brands, but principally Coltness and Langloan, to prices far above the legitimate value, but these prices must be paid if the iron is wanted. In consequence of this consignors there have directed all the Coltness and Eglinton here to be peremptorarily withdrawn from the market. A little Coltness can, however, still be had at $33.50@34, and some Eglinton at $29@30. The market here, however, continues dull, and does not respond to the state of the Scotch market. *Rails.*—The market continues without change, and we continue our quotations of $45@50, at works. *Scrap.*—We note sales of 1,100 tons Wrought and Cast, on private terms; also 100 tons Wrought at $30, bought by a dealer. We quote $30@32.50 for Wrought.—*Iron Age.*

British Market.

WEDNESDAY, September 29, 1875.—*Scotch Pig.*—A good deal of speculation has been indulged in on the Glasgow market during the week, and prices are in consequence considerably advanced. The following are maker's quotations: Coltness No. 1, 83s 6d; Gartsherrie No. 1, 76s 6d; Glengarnock No. 1, 71s; Eglinton No. 1, 68s. *Manufactured Iron.*—The market is dull, and there is very little doing; prices, however, are a little firmer. *Rails.*—There is a little improvement to note in the demand, but it has no effect on prices, which are nominally £6 5s@£6 15s for Welsh Rails.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, October 1, 1875.

The Crude market was very unsettled, and irregular to-day; immediate shipment was quoted at $1,50@1,56. What was the case of it, we were unabled to learn, but is supposed to have been the result of manipulation. Refined weak and decidedly lower; Philadelphia delivery was quoted this P. M. at 13⅝ cts, from which deducting 2¾ cts for bidging, and the remainder will be the price on cars here. Before the advance on freights, which went into effect to-day, 2¼ cts ⅌ gallon, covered the cost of bidging, now, it requires 2¾, or an increase of ½ a cent per gallon. As noted in our last report, rumors are current that freights are to be advanced 15 cts ⅌ bbl additional, on and after November 1st, but as yet no official notification has been made, and there may be no truth in these rumors.

The Barrel market continues firm, and with considerable inquiry, and a light supply, prices are still tending upward; city make, ordinary size quoted strong at $1,60, with removed sales at $1,65.

New York Wool Market.

Trade within a day or two has been rather quiet, as usual at the opening of the week, but there are indications at the close of a resumption of important business, and the trade confidently anticipate the life characteristic of the market last week. Western fleeces, in view of the increased business likely to result from the commencement of manufacture of Spring goods, are held quite firmly on the basis of late transactions, with offerings of combing much less general. For Texas holders are firm, with the movement, however, chiefly in small lots. Oregon is in liberal assortment, but not urgently offered, with quotations of Northern at 34@37c, and lots from other localities at 30@33c. In Spring California the liberal purchases made latterly have left the stock showing a poor assortment, consisting chiefly of burry lots; all desirable lots readily command firm figures. The old clip fall California are somewhat neglected, most parties holding off to await developments of the new clip. For Pulled there is no difficulty experienced in moving supplies promptly. Carpet stock is on a strong basis of values. Sales are 50 bags scoured California at 61@64c; 1,000 lbs inferior tub at 45c; 3,000 lbs slightly burry Eastern Texas at 25c; 6,000 lbs No. 1 pulled at 27c; 4,000 lbs washed combing and delaine at 59c, 3,000 lbs fine Australian do. on private terms; 5,000 lbs unwashed Indiana do. at 44c; 25,000 lbs Cape at 36½@37c; 15,000 lbs Medium Western Texas at 28½c; 20,000 XX Ohio fleeces at 47c; 46,000 X pulled at 40; 18 bags shearlings, 50 bags X pulled, 25 bags No. 1 do. on private terms.

Chicago Broom Corn Market.

Was fairly active. New corn is coming forward slowly, but when tolerably well cured sells about as readily as old, though the prices obtained for it are a trifle lower. Some new crop has been bought in Kansas and received here, but the growers in this State are still holding their crops firmly at higher figures than dealers or manufacturers are willing to pay. Quotations for choice hurl and the lower grades are reduced, and are supposed to represent the range for both new and old corn: Good to choice hurl, 11@11½c; brush that will work into a choice hurl broom, 10@11c; fair to good do, 9@9½c; inferior brush, 6½@7c; crooked, 5@7c.

Woolen goods are dull. Low grade felt skirts are higher.

Malaria-Breeding Floods.

The recent tremendous freshets which have flooded some of the most fertile low lands of the United States, have not only caused wide spread ruin and disaster, but have, as might have been expected, been followed by an unprecedented outcrop of fever and ague, bilious remittents, and other diseases of a malarial type. The sun's rays, acting upon the saturated vegetation and isolated pools left by the retiring waters, have exhaled a far-reached miasma, which is pregnant with disease. The most reliable safeguard against it is found to be Hostetter's Stomach Bitters, the present demand for which, more particularly in the West and Southwest, where the floods have been most severe, exceeds any which has existed in the past, popular as the great national remedy and preventive of malaria has always been. Never has it been put to such a crucial test, or its claims more conspicuously vindicated.

THE stage of water last evening was 18 inches, and stationary. Commenced to rain early on Thursday night, and up until last evening it had not ceased; however, it will require considerable rain to put our rivers in navigable condition again, and, furthermore, it is feared that there would not be much business even if there was water.

THE business men of Memphis are having an elegant set of colors made for the Mary Bell, and will present them on her arrival there.

ON Wednesday night the West Virginia collided with the Phil. Morgan, on the Kanawha river, a mile above Charleston. The damage was light.

THE dispatches yesterday reported rain at Brownsville and Rice's Landing, but at Parker's Landing, up the Allegheny, the weather was reported clear.

A MEMPHIS dispatch under date of Wednesday says:—The Smoky City, with coal saved from Island No. 10, is here, and proceeds to Natchez with half of the tow, leaving the rest here.

PASSENGER packets between Evansville and Louisville are doing a lively business between those two cities. They are cutting on freight rates, and carry passengers at $1 per head, and doing everything else that is unprofitable and against their own interest.

THE flag was displayed at half-mast on the Public Landing on Wednesday morning, at Cincinnati, in memory of John Cook, the second engineer of the James D. Parker, who died on Saturday at his home, of malarious fever. He was the son of Thomas Cook, Chief Engineer of the light-house tender Lily.

THE new Government snag boat is steadily approaching completion, and she is beginning to present a much better appearance. We hear it stated that Captain George Rowley, who has been in the Government service for several years, is to have command. No better selection for the position could be made, as, in addition to being a first class pilot, he has all the other necessary qualifications.

A SPECIAL dispatch from Boonville, Mo., says: —The steamboat Matamora struck a snag on Saturday, and sank in the river near this city. It was a freighting boat and was owed by parties at Jefferson City. The crew escaped with little difficulty and no accident. The Matamora had been engaged in transporting railroad ties from Osage river to Boonville. She was worth about five thousand dollars.

DR. THOMAS J. GRIFFITHS, Surgeon in charge of the U. S. Marine Hospital, at the port of Louisville, reports the following as the condition of the hospital under his charge during the month of September, 1875: Patients remaining the last day of August, 55; admitted during the month of September, 98; treated during the month, 153; discharged during the month, 62; died during the month, 1; remaining the last day of month, 90; out-door marine patients treated during the month, 3; private patients treated during the month, 2. Wm. McMurry, rouster, of the Bertie, died.

THE Louisville *Courier* continues to indulge in personalities, as will be seen by the following: Capt. Adams, of the Wild Duck, is in the city. He "took in" the Exposition last night, and was more pleased with the beauty of our city than with the alligator in the aquarium. In fact, the Captain came away singing:

"Oh! she was a beautiful blonde,
Her 'pull-back' was jolly to see;
I'd give the Wild Duck and her tow,
If I thought that she loved—and loved me."
